

Docket No. AUS920030307US1

ABSTRACT OF THE DISCLOSURE

**METHOD, SYSTEM, AND PRODUCT FOR IMPROVED STORAGE DEVICE
MEDIA VERIFICATION**

A system, method, and product are disclosed for verifying a condition of a storage drive's media. A command is received within the storage drive to verify the condition of the storage drive's media. In response to a receipt of the command, the storage drive attempts to read each one of the logical block addresses included in the storage drive. The condition of the media is verified by the storage drive by determining ones of the logical block addresses that are not in a readable condition.
